Out of the Box worship is a series of worship experiences during the month of July. Each Sunday will be a themed Sunday aimed to provide a diverse form of worship with the Word of God and music. This Sunday is Old Fashioned Sunday, focusing on the way worship has evolved over the years. Come ready with your church hats, casual attire to experience a joyful time in the Lord.

FIVE Keys To Investing For Retirement

Planning for retirement can feel overwhelming—especially if you're unsure about investing. Fortunately, these five key principles can help you stay on track and build a more secure future.

1. Stay Ahead of Inflation

Inflation reduces your money's purchasing power over time. If your investment returns barely outpace inflation, you may be actually losing ground. Consider increasing your retirement contributions annually and incorporating growth-oriented investments like stocks, which have historically helped offset inflation.

2. Invest Based on Your Time Horizon

Your time horizon—the number of years until you retire—should shape your investment strategy. Longer time horizons typically allow for more risk, potentially leading to greater returns. The more time you have, the better your chances of recovering from market fluctuations.

3. Know Your Risk Tolerance

Assess how much risk you can handle both financially and emotionally. If market dips make you uneasy, a more conservative portfolio may suit you better. Regular contributions and a diversified approach can help balance market ups and downs.

4. Align with Other Financial Goals

An emergency fund can prevent early withdrawals from retirement accounts, which often come with penalties. If you have debt, aim to contribute enough to get your employer's full match—it's essentially free money.

5. Diversify Your Investments

Diversification spreads your money across asset types—stocks, bonds, and cash—helping reduce overall risk and improve long-term stability.

Start simple. Stay consistent. Let time work for you.
